

COLOR CLASS WRAP

When we try to fulfil our shopping list, we generally need to bag the many items before leaving the counter, or face the impossible task of trying to carry them separately. So, let's do a check-out without breaking eggs.

Match each of the following statements with their corresponding term:

- ___1. A transparency of varying opacity which always darkens the color beneath it.
- ___2. The secondary colors of light.
- ___3. A color which is not the result of color mixtures.
- ___4. A composite mixture composed of the complement of the light source and ambient light.
- ___5. A visual phenomenon also known as "Aerial Perspective".
- ___6. Quality of an object in certain lighting conditions which allows light, but not detailed images, to pass through.
- ___7. The result of mixing complements in equal proportions.
- ___8. A colored light source which dulls green while intensifying the greenness in the cast shadow.
- ___9. A light source which allows us to see the true hue of a color.
- ___10. The bottom line of this course of study.

a. White light. b. Gray. c. Cyan, Magenta & Yellow. d. Primary. e. Volume Color.
f. Film. g. Amber. h. Relationship. i. Cast shadow. j. Translucency.
